

Senior Cycle Construction Studies	Development Group Meeting 3 13 th May 2024 Short Description
Agenda Item	Notes
Feedback from the online consultation	The feedback from the online consultation was used to identify emerging themes, which were then presented to the development group to inform their work.
Exploration of the strands of study and cross cutting themes	The development group discussed potential stands of study and cross cutting themes for the redeveloped subject. They provisionally agreed on four draft strands and delved into various cross-cutting themes. These strands and themes will develop further in upcoming meetings.
Further areas of exploration	The development group explored the importance of design and craft skills in the subject. They also considered the links to Wood Technology and a potential name for the redeveloped subject.
Next steps and next meeting	<p>Draft learning outcomes that align with the areas of learning identified by the development group, will be created for two strands of study. These outcomes will be shared with the group for consideration ahead of the next meeting.</p> <p>The chair reflected on the work done and thanked the members for their attendance and contributions.</p> <p>Next meeting: 11th September 2024</p>
