

| LC Computer Science | Development Group Meeting 2, October 23 rd 2024. Short Description |
|-------------------------------|--|
| Agenda Item | Notes |
| Review of updated spec | The updated specification, incorporating the early enactment report recommendations, was welcomed. |
| Key Competencies | The Executive provided an overview of key competencies in a redeveloped senior cycle and members of the group identified opportunities to develop the key competencies and supporting attributes specifically within LC Computer Science. |
| Rationale & Aims | Drafts of the Rationale & Aims were reviewed by the Development Group. Edits were suggested to terminology and phrasing, blending aspects of the current objectives with suggested drafting of aims and to broaden the rationale. |
| Next steps | <p>The Chair thanked members for their attendance and active engagement in the meeting. The Executive outlined the timeline for the future work of the group. The Executive will review the discussions and distribute draft materials for the next meeting.</p> <p>Next Meeting: November 20th 2024</p> |
